The top three horses in each of these Performance Rating categories are listed in rank order within each race: Projected, Last Race, Best at today's distance/surface and Good Races. For symbols after the Projected Performance Ratings, an up arrow symbol suggests a possible upside, a down arrow symbol suggests a possible downside, and a question mark signifies a particularly uncertain rating. The top Projected Performance Rated horse in each race is indicated with a white program number on a black field. A more detailed guide can be found on the last page of this report.

TrackMaster Performance Cycles User Guide

This is a brief user's guide to help outline some of the unique data points found in TrackMaster Performance Cycles. We strongly suggest you read the detailed tutorial at trackmaster.com (Thoroughbred Quarter Horse tab, click on Performance Cycles) to take full advantage of all of the information provided in these valued reports. The tutorial will guide you through Performance Cycle Patterns, effective use of the Performance Rating Par and Composite Ratings, and much, much more.

PERFORMANCE RATINGS: The Performance Ratings are calculated using a complex algorithm, which incorporates final time, pace and class to rate a horse's past efforts. These ratings are then plotted on the twelve-month and four-year graphs to be utilized for effective analysis. **THE LOWER THE RATING THE BETTER**, so the best rating a horse can earn is a zero while the worst possible rating is a 50. Races where ratings can't be determined will be marked with an X.

PERFORMANCE RATING PAR: This number is a gauge as to the Performance Rating that will probably need to be garnered to win today's race. The number is normally based on the efforts of today's field over the last six months. In races with lightly raced horses or many first time starters, the number is based on races of today's type and class at today's track over the last two years.

12-MONTH GRAPH: This graph provides a view of the cycle of a horse's Performance Ratings over the last twelve months. A horse's performance ratings are plotted with the better (lower) ratings at the top of the graph. The top row of this graph is determined by the best Performance Rating earned in the last twelve months by any horse in today's race. This makes it easy to see how a horse's ratings stack up versus the rest of the field when viewing the graph. The table found below explains the various symbols found next to the Performance Ratings.

4-YEAR GRAPH: Similar to the twelve-month graph, except that the data is provided for the last four years and symbols are used to plot the ratings rather than the numbers themselves. Also, the range of the graph is determined by the best and worst ratings a horse has earned over the last four years. This makes it easy to see how the horse is performing now versus the rest of his career.

PAST PERFORMANCES: The abbreviated Past Performances found in TrackMaster Performance Cycles correspond to the Performance Ratings found in the twelve-month graph. The bold numbered column displays the Performance Rating of the race.

The **RUNNING STYLE OR BREAK STYLE** of each horse is found under the horse's name. The designations are as follows:

RUNNING STYLE (THOROUGHBREDS)

- Front-runner: Usually on the early lead.
- Alternator: Has no particular Running Style. One of the other Running Styles is assigned based on recent races.
- Stalker: Normally sits just off of the Front-runners in the early stages of the race.
- Trailer: Usually near the back of the pack in the early going.
- Unknown: Running Style not known, usually because the horse is a foreign horse or a first time starter.

BREAK STYLE (QUARTER HORSES)

- Fast: Usually gets out of the gate quickly.
- Average: Normally breaks with the rest of the field.
- Slow: Usually slow from the gate.
- Trouble-prone: Tends to get into trouble in many of its races.
- Unknown: Break Style not known, usually because the horse is a first time starter or a Thoroughbred trying a Quarter Horse race for the first time.

Symbols used in Last 12 Months Performance Rating (PR) Graph

- 32 Performance Rating (0-50 scale) - lower number is better rating
- X No Performance Rating
- C Major change from previous race
- Rating lower than bottom of scale (last 12 months only)
- S Slow paced race
- F Fast paced race
- K Potentially hidden (stronger) effort
- M Multiple races at this PR level and time period, most recent shown
- L Race less than 5 furlongs (Thoroughbreds only)
- G Race more than 1 1/2 miles
- T Regular turf
- I Inner turf
- O Outer turf
- H Downhill turf
- J Jumps
- No surface symbol means regular dirt
- N Inner Dirt
- W Training Track
- 32 No underlining - sprint race
- 32 Underlining - route race

Symbols used in conjunction with Projected Performance Rating (PPR)

- A Possible Upside to Projected Performance Rating
- V Possible downside to Projected Performance Rating
- Q Particularly Uncertain Projected Performance Rating

Symbols used in Last 4 Years Performance Rating (PR) Graph

- D Dirt-Sprint
- E Dirt-Route
- Y Turf-Sprint
- Z Turf-Route
- P Multiple races at this PR level and time period, most recent a Dirt-Sprint
- R Multiple races at this PR level and time period, most recent a Dirt-Route
- B Multiple races at this PR level and time period, most recent a Turf-Sprint
- U Multiple races at this PR level and time period, most recent a Turf-Route

Note: Sprint - Thoroughbred: less than 1 mile, Quarterhorse: less than or equal to 440 yards
Route - Thoroughbred: more than or equal to 1 mile, Quarterhorse: more than 440 yards
