# Pronósticos Revista Hípica

En esta sección: colocamos nuestros pronósticos para la carrera. indicando nuestros primeros 5 favoritos (Picks) para la carrera en la superficie oficial de la carrera . Calculamos una puntuación para cada ejemplar usando un complejo algoritmo propiedad de Revista Hípica con inteligencia artificial, que incorpora las diferentes variables de análisis para cada carrera. Cuanto más alto sea el puntaje del ejemplar; representará su chance de ganar la carrera y poder comparar con los demás ejemplares. Estos ratings (puntuaciones) luego lo representamos en un plotter (Gráfico) para simular nuestro pronóstico para el orden de llegada en la carrera. Muchas veces las carreras son en grama y por motivos del estado de la pista pueden ser cambiadas para la pista de arena o a la pista de arena sintética; en ese caso , damos un pronóstico adicional en caso de que la superficie de la carrera sea cambiada de Grama (Turf) para la pista de arena (Dirt) o a la pista (All weather ,que por lo general sintética ) para el momento de la carrera.

- Los mejores 3 en la carrera por indicador:** para ahorrarle tiempo en su análisis; mostramos en esta sección un resumen con los tres mejores por algunas variables que pudiesen ser relevantes en el resultado de la carrera:
- Top 3 Average Class :** Muestra los 3 ejemplares que tienen el mejor Avg Class - promedio de class rating de por vida .
- Top 3 Avg Speed - Average Speed rating :** muestra los tres mejores ejemplares que tienen el mejor promedio de Speed rating de por vida.
- Top 3 % Ganador Jinete-Entrenador:** Muestra los tres mejores ejemplares con el Porcentaje de efectividad del Entrenador-Jinete juntos en los últimos 30 días
- Top 3 Last Speed rating:** muestra los tres mejores ejemplares que tienen el mejor Speed rating en su última carrera.
- Top 3 Fango :** muestra los tres mejores ejemplares que ya han corrido en fango (condición de una pista que se encuentra en un estado de fango, barro o mojada por la lluvia) anteriormente y hayan tenido una buena figuración con la pista en esa condición; por lo tanto se indica que son corredores que han sobresalido anteriormente en carreras con un estado de pista fangosa. Esta información es importante ya que el estado de la pista puede ser determinante para el resultado de una carrera ya que existen ejemplares que no les gusta las condiciones de fango y probablemente no realicen su mejor carrera en estas condiciones de pista.
- NOTA IMPORTANTE :** Solo indicamos los ejemplares para los cuales tenemos registros que hayan corrido bien en pista fangosa anteriormente ; No necesariamente quiere decir que un ejemplar que no se indique en esta sección signifique que haya corrido ya en fango y no haya tenido una buena actuación ya que es posible que el ejemplar nunca haya corrido en pistas fangosas anteriormente.
- Top 3 Money Line :** Indicamos en esta sección los tres primeros de acuerdo el Money line: el Money line son los dividendos estimados iniciales del programa, por lo general son realizados por el Handicapper oficial del hipódromo

**NOTA IMPORTANTE :** Los colores no indican nada en particular ; solo se reflejan para identificar a cada ejemplar en el grafico y el distanciamiento que pudiese haber entre cada ejemplar de acuerdo a su puntaje. El tamaño de la burbujas , a medida que sea mas grande indicará que tiene mayor puntaje en la escala del grafico, cuando varios ejemplares estén muy cerca en su puntaje. Nuestro algoritmo tiene un 70 % de efectividad ; de que el ganador de la carrera estará entre los tres primeros favoritos de la carrera ; demostrado para más de 600 mil carreras.
